

Dear Benefactor,

Wishing you a very happy Christmas and Bright Prosperous New year of 2018. May the Holy Baby visit you with his choicest graces and blessings. May the coming, new year be a year of grace and prosperity.

I hope you are keeping well and enjoying good health. Mahesh and his family are keeping well, and happy these days. Two months back his wife and younger son were very sick. They had cough, cold and fever. Mahesh had to do all household work and come for his duty. He is working, as a gardener in our convent.

Sometimes they feel lonely. His two sons missed their grand mother because she looked after them when their parents go out for work. With her dead, the pension money also stopped. Mahesh has to work harder. His mother was a moral and financial support. His son Manjeet is in class I; and the younger one Joy kurmi is still small. He is at home with his mother. A small pig is bought to rear. His wife keeps few chicken which they sometimes sell to buy dal, sugar, oil etc.

They are hard working, simple and humble people. They are very happy and grateful to you for your concern and love. They send their best wishes and much love to you. Mahesh, Lokhimoni, Manjeet and Joy kurmi would like very much to see your loving faces. They will always remain grateful and Thankful.

With much love and renewed wishes of Christmas and New year.

Yours Sincerely in Jesus
Sr Maria Angeli for
Mr Mahesh & family
