

Report for the amount of 2,100 Euro towards the Bakery Project for Rabuor Youth Group.

We acknowledge the reception of the amount of 2,100 Euro towards the bakery project for Rabuor youth group and we are very grateful. That was a real Christmas gift you gave to us after we had experienced difficulties when our project was interrupted by arrogant young people supporting on side of political party in our country.

We managed to relocate ourselves to a new place and we have started well by this January 2018 and already we can see good progress in the project. The amount of money you gave us was enough to buy two bakery machines, and bales of baking flour. At the moment we have markets to sell our produce in local secondary schools and nearby trading centre we are only six youths and this number is small but well managed because everybody is full involved and have passion for the project. We will always update you on the progress of our projects and other developments that we will be planning to do we are very grateful to you and we pray for the benefactors who have assisted us always ,we are sending photos of our work and what we have done.

Fr. Raphael Mang'iti
